PRESS RELEASE

ELITEOPS NAMED ZSCALER AMERICAS EMERGING PARTNER OF THE YEAR AT 2026 EXECUTIVE PARTNER SUMMIT

Minneapolis, MN, United States — April 23, 2026 — EliteOps, a leading provider of cybersecurity and observability solutions, today announced it has been named Zscaler Americas Emerging Partner of the Year at the Zscaler Executive Partner Summit 2026. The award recognizes partners who demonstrate exceptional leadership, innovation, and execution in helping customers across the Americas region modernize security, accelerate digital transformation, and achieve measurable business outcomes using Zscaler's Zero Trust Exchange Platform™.

Selected from Zscaler's Americas partner ecosystem, EliteOps was recognized for its ability to translate zero trust strategy into real-world impact, helping organizations simplify security, reduce risk, and enable secure, scalable growth in an increasingly complex threat landscape.

"Being recognized as a Zscaler Americas Emerging Partner of the Year is a testament to the impact our teams are delivering for customers at scale," said Casey Collins, Founder & CEO of EliteOps. "Together with Zscaler, we are helping organizations move beyond legacy security models and embrace a true Zero Trust architecture that reduces risk, simplifies operations, and enables secure digital transformation. This award reflects our shared commitment to execution, innovation, and measurable business outcomes."

The Zscaler Americas Partner Awards celebrate partners who have delivered outstanding results over the past year through strong collaboration, differentiated go-to-market execution, and deep customer engagement. EliteOps' recognition reflects its continued growth, market leadership, and ability to deliver coordinated, outcome-driven solutions alongside Zscaler.

By aligning closely with Zscaler's platform strategy and focusing on secure access, data protection, and AI-driven threat prevention, EliteOps has helped customers across the Americas region advance Zero Trust initiatives, modernize legacy security architectures, and strengthen resilience in the face of evolving cyber threats.

"Zscaler stands at the forefront of an AI-redefined era in cybersecurity, and our partners are instrumental in delivering intelligent, scalable, and proactive Zero Trust solutions to customers worldwide," said Anthony Torsiello, Senior Vice President, Global Partner Ecosystem, Zscaler. "It is with great pride that we recognize EliteOps with the Emerging Partner of the Year award, underscoring their exceptional ability to operationalize Zscaler's AI-powered security platform to address the unique challenges facing organizations across the Americas region."

About EliteOps

EliteOps is a cybersecurity and observability solutions provider focused on helping organizations unify security, data, and IT operations. With deep expertise in platforms like Zscaler, EliteOps delivers outcome-driven services that simplify complex environments, enhance visibility, and strengthen security posture. Through a proven methodology and a team of experienced practitioners, EliteOps enables customers to accelerate digital transformation and realize the full value of their technology investments.
